

My Favorite Muscle Building Meal

Calorie dense, high protein, and built for growth

GROUND BEEF, SWEET POTATO AND AVOCADO

The meal I eat when I need to hit my surplus without forcing food down. Every ingredient doing real work.

WHAT YOU NEED

- 1 lb 93% lean ground beef
- 1 large sweet potato, cubed | 1 tsp olive oil
- 1 ripe avocado | Salt, pepper, garlic powder
- Chili powder and paprika | Optional: hot sauce

HOW TO MAKE IT

1. Cube sweet potato, toss with olive oil and salt, air fry at 400F for 18 to 22 mins.
2. Brown ground beef over medium-high heat.
3. Season with salt, pepper, garlic powder, chili powder, and paprika.
4. Drain excess fat. Plate with sweet potato and halved avocado.

Why it works: One pound of 93% lean beef delivers over 117g of protein. The cubed sweet potato crisps up in the air fryer for clean carbs and recovery fuel. The avocado pushes your calories up without making you feel stuffed.
