

My Favorite Fat Loss Meal

High protein, low calorie, and actually satisfying

TUNA SALAD LETTUCE WRAPS

The meal I keep coming back to when I need something fast, filling, and on target.

WHAT YOU NEED

- 1 can Kirkland Signature albacore tuna (40g protein)
- 1 tbsp light mayo | 2 tbsp plain Greek yogurt
- 1 tsp yellow mustard | 2 tbsp diced dill pickles
- 2 green onions, chopped | Salt and pepper to taste
- 4 to 6 large romaine lettuce leaves

HOW TO MAKE IT

1. Drain the tuna and add to a bowl.
2. Mix in mayo, Greek yogurt, and mustard until creamy.
3. Fold in pickles and green onions. Season with salt and pepper.
4. Spoon into romaine leaves and eat. Store filling up to 2 days.

Why it works: Greek yogurt replaces half the mayo keeping it creamy with fewer calories. Tuna is one of the best protein to calorie foods you can buy. Over 50g of protein in one sitting keeps hunger away for hours.
